From California-A Million and a Half of Gold. The steamship Crescent City arrived at New York on the 7th instant, with San Francisco dates to the 2d of November. She brings one million of dollars worth of gold dust on freight, and four hundred thousand in the hands of the passengers, who numberone hundred and sixty, and among them the Minister from the King of the Sandwich Islands. The accounts from California continue encouraging. The health of the mines is generally good, with an immense emigration. The State Constitution had been adopted by the Convention, and was to have been proposed to the people for adoption on the 15th of November, and on the same day a Governor and two members of Congress were to have been elected .-THOMAS BUTLER KING, who is said to have resigned his seat as a member of Congress from Georgia, is a prominent candidate for the U.S. Senate from the new State of California.

UNLUCKY .- Mr. THURSTON, delegate to Congress from Oregon, in crossing the isthmus, lost his trunk containing his credentials.

Damages .- Daniel Moore, printer, in Philadelphia, lately recovered \$3,000 damages, from Gro. W. Warson, the celebrated Carriage Manufacturer, whose sign was blown down last January, and in the fall broke Moore's leg, so that it had to be amputa-

very good character, was shot at his house in South comes next before Jupiter, the greatest in size of all the Creek district in this county, a few days since, by Moses Ernal, of Craven county. The wife of Roe, to whom he had been married about 10 months, was waked about 3 o'clock in the morning by a noise at the door. She got up, opened the door, and the moon shining very bright, saw ERNAL holding a handkerchief over his face; but in attempting to dodge around the corner of the house the handkerchief fell, and she saw his face and knew him. She then called her husband, who in a few moments afterwards was shot at through a hole between the logs of the house, one bullet and five buck-shot entering his breast. ERNAL has been arrested and is now in jail. We learn there spaired of.

This is the third attempt, we learn, that has been made to take his life since his marriage, and that he tinents, or the elevation of mountain chains. No to trouble themselves about; when in fact how little received an anonymous letter, threatening to kill general law, in these respects, is discoverable, either do we know even of good practical farming, to say him in case he should marry as he did. His wife is in the regions of space or in the irregularities of the nothing of scientific. a sister of ERNAL's wife .- North State Whig, 5th inst. | crust of the earth.

CENSUS OF IOWA FOR 1849.—From partial returns past years has been a little more than one-fourth.— The unprecedented immigration during the present fall, together with that to take place next spring. will no doubt give us over 200,000 at the general census, if the taking of it be delayed until late in the found interesting, as showing the vast amount raised spring—or enough to entitle the State to three representation is not increased to over 80,000, it now being 70,680, with an additional representative for a fraction over one-half-Iowa City Reporter.

population of over four hundred thousand in New York, there are 3,500 professional prostitutes, 10 professional burglars, 10 professional pickpockets, 50 Peter Funks, 24 panel thieves, male and female, 10 professional hotel thieves, 300 till, entry and Five Point thieves, 900 dock and invenile thieves of 1 Point thieves, 900 dock and juvenile thieves of all sorts, and 50 female shoplifters. The Express says, however, that this estimate is rather too large than otherwise; and in proportion to the population, many recent tour in New England. The Sleeping Child.

A brook went dancing on its way,
From bank to valley leaping;
And by its sunny margin lay
A lovely infant sleeping.
The murmur of the purling stream
Broke not the spell which bound him,
Like music breathing in his dream A lullaby around him.

It is a lovely sight to view, Within this world of sorrow, One spot which still retains the hue That earth from Heaven may borrow: And such was this—a scene so fair, Arrayed in summer brightness, And one poor being resting there-

One soul of radiant whiteness. What happy dreams, fair child, are given To cast their sunshine o'er thee? What cord unites that soul to heaven, Where visions glide before thee? For wandering smiles of cloudless mirth

O'er thy glad features beaming, Say, not a thought—a form of earth Alloys thine hour of dreaming! Mayhap, afar on unseen wings, Thy sinless spirit soaring, Now hears the burst from golden springs,

Where angels are adoring. And with the pure heliacal throng, Around their Maker praising, The joyous heart may join the song Ten thousand tongues are raising Sleep, lovely babe !- for times cold touch Shall make these visions wither; Youth, and the dreams which charm so much, Shall fade and fly together,

Then, sleep-while sleep is pure and mild,

Ere earthly ties grow stronger, When thou shalt be no more a child,

And dream of Heaven no longer.

AMERICAN SAILORS ON EXHIBITION.—Late news from Lahaina received at New London, Connecticut. Among the Premiums awarded at the late makes mention of the arrival at the former place of the American whaler Minerva, Capt. SEABURY .-Capt. Agricultural.

Agricultural Song. The following was sent to the officers of the Norfolk County (Mass.) Agricultural Society, at their meeting in October last, by Tristram Burgess, Eq., of Rhode Island:

With the Pioneer Axe, what a conquest is made; What a field from the forest is won! What regions, reduced from the wilderness shade, Are now warmed in the beams of the sun. From the rock where our fathers in exile first landed.

Their clearing, from river to river, has spread; And mountains, and plains, by their sons are commande Till now on the beach of Pacific they tread. What farm for a nation to cultivate now!

And gather the wonderful harvest it yields; 'Tis an Empire, reduced to the Sickle and Plow, An empire of gardens, and orchards, and fields.

The Plow and the Sickle shall shine bright in glory,
When the Sword and the Sceptre shall crumble in rust
And the farmer shall live, both in song and in story, When warriors and kings are forgotten in dust.

From the Albany Cultivator.

Importance of Iteading and Study. Though farmers may always find more or less time ticularly, from the leisure it affords, the season for this purpose. The crops having now been secured, and the various matters requiring constant attention the consideration of plans for future operation; and that he may act understandingly in forming such plans, it is essential that he should in the outset plans, it is essential that he should, in the outset, perfect terror to the pigeon. Whether it could be possess a thorough knowledge of the principles and trained to answer the purpose suggested is doubtful; a large number of ladies, who are peculiarly subject to Nergeneral state of agriculture. The mediums through but from the great dread manifested towards it by which this knowledge is to be acquired, are reading. conversation, and observation, aided by reflection

DR. CHRISTIE'S GALVANIC BELT, BRACELETS, NECKLACE

MAGNETIC FLUID, For the removal and permanent cure of all Nervou

And of those complaints which are caused by an impaired, weakened or unhealthy condition of the Nervous System.

This beautiful and convenient application of the mysterious powers of GALVANISM and MAGNETISM, has been pronounced by distinguished physicians, both in Europe and the United States, to be the most valuable medicinal discovery of the Age. Dr. Christie's Galvanic Belt and Magnetic Fluid, Is used with the most perfect and certain success in all cases of GENERAL DEBILITY, strengthening the weakened body, giving tone to the various organs, and invigorating the entire system. Also in Fits, Cramp, Paralysis and Palsy, Dyspepday in easks: 1st, a layer of hams in perfectly dry hickory ashes; 2d, a course of corn cobs, &c.; cover your cask snug and tight; and you may rest easy about your hams."

Also I have the Alay, Dyspepsia or Indigestion, Rheumatism, Acute and Chronic, Gout, Epilepsy, Lumbago, Deafness, Nervous Tremors, Palpitation of the Heart, Apoplexy, Neuralgia, Pains in the Side and Chest, Liver Complaint, Spinal Complaint, and Curvature of the Spine, Hip Complaint, Diseases of the Kidneys, Deficient cy of Nervous and Physical Energy, and all Nervous Diseases, which complaints arise from one simple cause-namely,

A Derangement of the Nervous System. In Nervous Complaints, Drugs and Medicines increas the disease, for they weaken the vital energies of the already prostrated system; while under the strengthening, life-giving, vitalizing influence of Galvanism, as applied by this beautiful and wonderful discovery, the exhausted patient and weaken-

The great peculiarity and excellence of Dr. Christie's Galvanic Curatives, consists, in the fact that they arrest and cure disease by outward application, in place of the usual mode of drugging and physicking the patient, till exhausted nature sinks hope

They strengthen the whole system, equalize the circulatio of the blood, promote the secretions, and never do the slightest injury under any circumstances. Since their introduction in the United States, only three years since, more than 60,000 Persons,

Entirely and Permanently Cured,

when all hope of relief had been given up, and everything else To illustrate the use of the Galvanie Belt, suppose the case of a person afflicted with that bane of civilization, Dys-PEPSIA, or any other Chronic or Nervous disorder. In ordinary cases, stimulants are taken, which, by their action on the nerves and muscles of the stomach, afford temporary relief, but which leave the patient in a lower state, and with injured faculties, after the action thus excited has ceased. Now worse symptoms of an attack, and simply tie the Belt around the body, using the Magnetic Fluid as directed. In a short period the insensible perspiration will act on the positive ele-ment of the Belt, thereby causing a Galvanic circulation which will pass on to the negative, and thence back again to the positive, thus keeping up a continus Galvanic circulation throughout the system. Thus the most severe cases of Dys-PEPSIA are PERMANENTLY CURED. A few days is often amply

sufficient to eradicate the disease of years. Certificates and Testimonials, Of the most undoubted character, from all parts of the country, could be given, sufficient to fill every column in this paper An Extraordinary Case,

which conclusively proves that "Truth is stranger than Fic The following letter, narrating one of the most re markable events in the annals of medical science, is from the Rev. Dr. Landis, a Clergyman of New Jersey, of distinguished attainments and exalted

Sidney, New Jersey, July 12, 1848.

Dr. A. H. Christie-Dear Sir: You wish to know of me what has been the result in my own case, of the application of the Galvanic Belt and Necklace. My reply is as follows: For about twenty years I had been suffering from Dyspepsia Every year the symptoms became worse, nor could I obtain permanent relief from any course of medical treatment whathere their prescriptions failed. About fourteen years since, in consequence of frequent exposure to the weather, in the ufacture it for him. Deponent, in one of the conversations, discharge of my pastoral duties, I became subject to a severe asked said Townsend if he was related to Dr. S. P. Townsend; indescribable anguish. In the severer paroxysms, the skill of him after he should commence, but that he did not care for my physicians sometimes afforded me great relief; but this relief was only temporary. Farther: in the winter of '45 and various other churches in this region, I was attacked by the Bronchitis, which soon became so severe as to require an imtion-thus evincing that these disorders were connected with each other through the medium of the Nervous system. My sufferings were indeed severe, and I had no prospect other than being entirely laid aside from the discharge of those duties, and the performance of those labors in which my soul has

ever found the highest of her joys. But reasoning from effect to cause, I concluded that [the Nervous System must be reached before any hope could be indulged of my obtaining relief from these most distressing maladies. In the whole pharmacopæia there seemed to be no remedial agent which could reach and recuperate my Nervou system; everything that I had tried for this purpose had com-pletely failed. At last I was led by my friends to examine your inventions, and (though with no very sanguine hopes of tion of the GALVANIC BELT AND NECKLACE, with the MAGNET-IC FLUID. This was in June, 1846. To my great astonish ishment, in two days my Dyspepsia had gone; in eight days I was enabled to resume my pastoral duties; nor have I since omitted a single service on account of the Bronchitis; and my

mitted, I could fill a sheet of paper with the details of particulars, but I can now only furnish this brief abstract. My Dyspepsia has never returned; the Rheumatism once in a while visits me, but not severely, and is easily arrested, and is manifestedly being driven from its hold upon my system, and my Bronchial affection is entirely cured. Such is the wonderful and happy results of the experiment.

I have recommended the Belt and Filtip to many who have been likewise suffering from Neuralgic affections. They have tried them, with happy results, I believe in every case.

tried them, with happy results, I believe in every case. 1 am, dear sir, very respectfully yours, ROBERT W. LANDIS. Dr. Christie's Galvanic Necklace

Is used for all complaints affecting the Throat or Head, such as Bronchitis, Inflammation of the Throat, Nervous and sick Headache, Dizziness of the Head, Neuralgia in the Face, Buzzing or Roaring in the Ears, Deafness, which is generally Nervous, and that distressing complaint, called Tie Doloreux.

Dr. Christie's Galvanie Bracelets Are found of vast service in cases of Convulsions or Fits, Spas-modic Complaints, and general Nervous Affections of the Head and upper extremities. Also in Palsy and Paralysis, and all diseases caused by a deficiency of power or Nervous Energy in the limbs or other organs of the body.

Many hundred Certificates, from all parts of the coun-

ry, of the most extraordinary character, can be given, if re-No trouble or inconvenience attends the use of Dr. CHRISTIE'S GALVANIC ARTICLES, and they may be worn by the most feeble and delicate with perfect ease and safety. In many cases the sensation attending their use is highly pleasant and agreeable. They can be sent to any part of the country.

The Galvanic Belt, The Galvanic Necklace, Two Dollars, The Galvanie Bracelets, One Dollar each. The Magnetic Fluid, One Dollar. The articles are accompanied by full and plain directions. Pamphlets, with full particulars, may be had of the authorized Agent.

PARTICULAR CAUTION.—Beware of counterfeits and worthless imitations. D. C. MOREHEAD, M. D., General Agent for the United States, 132 Broadway, New York.

EXPOSE. BY reading the following affidavit, the public will learn the origin or rather where the recipe for making the stuff they call OLD DR. JACOB TOWNSEND'S SARSAPARILLA, came from—and will be able to judge which is the genuine and original, and of the honesty of the men who are employed in selling it as the original Dr. Townsend's Sarsaparilla. Dr. S. P. Townsend was the original proprietor and inventor of Dr. Townsend's Sarsaparilla, and his medicine has gained a reputation that no other remedy over gained. He manufactured over one million of bottler the last year, and is manufacturing at present 5,000 bottles per day. We use more Sarsaparilla and Yellow Dock in our establishment each day than all the other Sarsaparilla manufacturers in the world. Principal office, 126 Fulton Street.

READ THE AFFIDAVIT. City and County of New York, ss.

William Armstrong of said city being duly sworn, doth depose and say that he is a practical Druggist and Chemist. That some time in the latter part of May, or first of June, 1848, a man by the name of Jacob Townsend, who at that time was a book and pamphlet pedlar, called upon deponent at the house of Mr. Thompson, No. 42 Hadson street, where deponent boarded, and requested deponent to write him a recipe by which to make a Syrup of Sarsaparilla. Deponent further says, that he became acquainted with said Townsend at the office of Theodore Foster, Esq., book publisher, with whom said Townsend dealt. That said Townsend had had frequent conversations with deponent respecting the manufac-ture of an article of Sarsaparilla to be sold under the name of Dr. Jacob Townsend.

That said Townsend stated he was an old man and poor, and was not fit for hard labor, and wished to make some money in order to live easy in his old days, and that if Sarsaparills, under the name of Townsend, sold so well, and so much money was made by it, he could see no reason why he might not make something out of it too, (his name being Townsend,) him, as he had formed a co-partnership with men who could furnish the requisite amount of capital-and was well prepared to defend himself against any attack that might be made

Jacob Townsend, he wrote a recipe for the manufacture of a Syrup of Sarsaparilla and gave it to him. Said Townsend bserved that he wanted to make a specimen to exhibit to his partners for their approval, as he wished to gratify them in verything, as they furnished all the capital. Said Townsend also told deponent that the bottles they were to use were to be of the same size and shape as Dr. S. P.'s; and deponent, at the request of said Jacob Townsend, went to the office of Dr. S. P. and procured one of his labels. And deponent further says that he has been informed, and

verily believes, the Syrup of Sarsaparilla sold as Old Dr. Ja-cob Townsend's, is made after the recipe furnished by deponent to Jacob Townsend, as aforesaid. And further deponent said not. WILLIAM ARMSTRONG. Sworn to before me, this 24th day of May, 1849,

In this preparation are strongly concentrated all the Medicinal properties of Sarsaparilla, combined with the most effectual simples of the vegetable kingdom; and it has been so fully tested, not only by patients themselves, but also by Physicians, that it has received their unqualified recommendations and the appro-VALUE and EFFICACY far superior to the various compounds bearing the name of Sarsaparilla. Diseases have been cured, such as are not furnished in the records of time past; and what it has already done for the thousands who have used it, it is capable of doing for the millions still suffering and struggling with disease. It puri-fies, cleanses, and strengthens the fountain springs of life, and infuses new vigor throughout the whole animal frame.

The diseases for which this article is recommended are those to which it is known

from personal experience to be adapted; and those apparently removed beyond the sphere of its action have yielded to its influence. The catalogue of complaints might be greatly extended to which the Sarsaparilla is adapted, but experience proves its value, and each succeeding day is adding new trophies to its fame. REMARKABLE CURE OF BRONCHITIS.

Messrs. Sands:--Having suffered many years with a disease of my throat, affecting the larynx, during which time I was treated by the most distinguished physicians in Europe and the United States, without receiving any permanent benefit, but all the Europe and the United States, without receiving any permanent benefit, but all the time my general health and strength declining, and the disease making fearful progress: caustic applications were used, and whatever else was thought most efficient for producing a cure; but I am confident the deplorable situation I was in, the laryngitis being accompanied with phthisis and great difficulty in breathing, would soon have terminated my life, had I not obtained relief through the medium of your valuable Sarsaparilla. I must say, gentlemen, when I commenced using the Sarsaparilla I did not place much confidence in its virtues; and this will not surprise you, when you are informed I had tried more than fifty different remedies during the past four you are informed I had tried more than fifty different remedies during the past four years, without any success; but after taking your Sarsaparilla a few weeks, I was years, without any success; but after taking your Sarsapania a lew solution obliged at last to yield to evidence. This marvellous specific has not only relieved, but cured me; and I therefore think it my duty, gentlemen, for the benefit of suffering humanity, to give you this attestation of my cure.

Yours very truly,

D. PARENT.

Consulate of France in the United States. The above statement and signature were acknowledged in our presence by Mr. D. For the Consul-general of France, L. BORG, Vice-Consul.

CANCEROUS ULCER PERMANENTLY CURED. LET THE FACTS SPEAK FOR THEMSELVES .- The following striking, and, as will be seen, permanent cure of an inveterate Cancer, is only another link in the great chain of testimony to its merits. Let the afflicted read and be convinced. What it has deepen and the convinced of the convinced o

Messrs. A. B. & D. Sands:-Gentlemen-In the year 1842 I was attacked with a cancer in my neck, which soon extended its ravages over the side of my face, eating the flesh, and leaving the cords of my neck bare, discharging very freely, eausing intense pain and suffering, depriving me of rest at night and comfort by day, destroying my appetite, and reducing me almost to the gates of death. I was attended by the first physicians in the state, who prescribed for me, and did all that skill and talent could effect, but during all the time I continued to grow worse under their care. In the Spring of 1844 I chanced to hear of the cures performed by your Sarsaparilla, and determined to try it. I had not used over two bottles before I felt its effects on my system most sensibly. My appetite was soon restored, my strength was increasing, the discharge from the cureer decreased and I soon began to receive that the decrease system most sensibly. My appetite was soon restored, my strength was increasing, the discharge from the cancer decreased, and I soon began to perceive that the flesh was healing. I continued its use according to directions, and also continued to grow better and better from day to day, until I have been fully and wholly cured by its use. It is now two years since I was cured, and I have remained perfectly well up to this day. I have delayed giving you this certificate, that I might ascertain whether the disease would reappear; but I am happy and most thankful to again repeat that the cure is a perfect one, and effected wholly by the use of your Sarsaparilla. The scars still remain; and all who know me, and many of the citizens of Stamford, can testify to the severity of my case and my sufferings, and the health-restoring power of your Sarsaparilla. I can with unhesitating confidence recommend its use to every sufferer afflicted with similar complaints. After experiencing what I have from its effects, I can say to one and all, "Hesitate and doubt no longer, but secure to yourselves the

health-giving virtue this medicine can alone bestow."

Most gratefully I am, and shall always remain, your friend, ISAAC STEVENS. TESTIMONY FROM EUROPE.

Legation United States, Berlin, Prassia, April 8, 1846.

Messrs. A. B. & D. Sands:—Gentlemen—Having seen your Sarsaparilla used in this city with great effect in a severe case of Schofula, I have been requested to order three dozen bottles, which please send, on the payment of the enclosed draft on Messrs. Henschen & Unkhart, with the least possible delay. I am inspired only by a feeling of philanthropy, in begging you to publish this unasked testimony to the value of a medicine which, widely as it is known, is not known as it ought to be.
